In addition, and with special attention, we will go into the botanical background, cultural characteristics and myths. This year we will start with a gin and absinthe tasting in weekly alternation.

The event lasts about one hour.

Let yourself be enchanted by the spirits of plants and new tastes.
We look forward to seeing you.

Gin tasting

Starting in the fresh air, the participants not only learn the meaning of the word juniper, but also learn everything they need to know about the most important botanicals.

With this knowledge, they move on to the bar to open their taste buds to the cult spirit.

Finally, the participants have the opportunity to choose one of three cocktails, which you will probably only find with this special touch here at the Schatzalp.

Are you out of your mind?
An evening influenced by absinthe

In the unique ambience of the wine cellar, participants will gain an insight into the great history of one of the most vicious drinks of Swiss origin. Special attention is paid to the plants used in the production.

Finally, the participants decide for themselves how they would like to enjoy their favourite absinthe and whether the way home will shine in colours of the great artists of the twenties.
